

PACIFIC UNIVERSITY

O R E G O N

“ Pacific University is ivy-covered brick buildings and big old oak trees situated midway between metropolitan Portland and the beautiful Oregon coast. Here students and teachers know one another — beyond the classroom. They eat together, they argue together, they laugh together, and they discover and learn together. Here a student interrupts her biology research to go to basketball practice, the President teaches an Honors Seminar, and a graduate student in psychology presents an original musical composition for piano and orchestra. At Pacific, students and teachers are a community — one in which pride in the University and in one another dominates our daily encounters.”

Bob Duvall

Robert F. Duvall  
President  
Pacific University

Facts About Pacific .....	17

# Small University...

Pacific's size fosters involvement. You'll be much more than a spectator at your own education. The small classes, modern and well-equipped facilities, and special study opportunities make you an active participant in everything you do.

Consider the relationship between students and their professors. Since classes at Pacific usually range from 15 to 25 students, professors know much more than your name and how you did on your last paper. They know you, your interests and why you're taking their particular course.

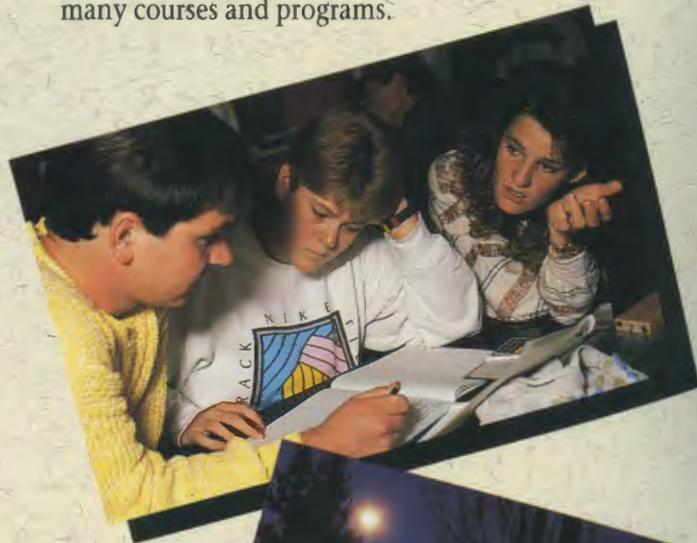

## We've chosen to stay small

Pacific's size is no accident. The University has chosen to stay small to keep your opportunities big. You'll find it's easy to get to know the campus and people at Pacific. At the same time, students often wish they had more than four years to explore Pacific's many courses and programs.

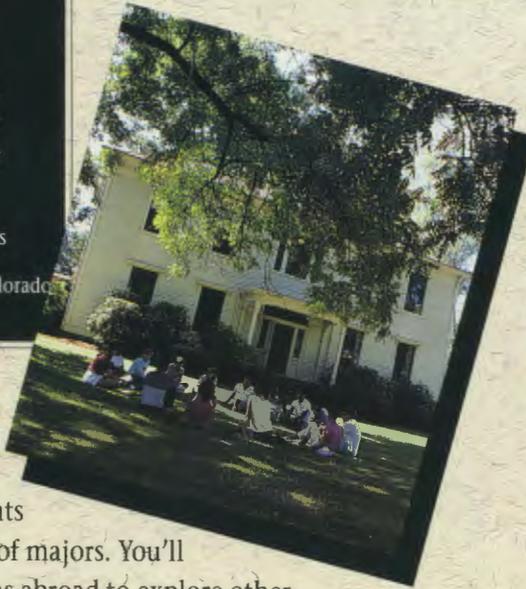

### Extra Credit: What are the names of my children?

Over his 16 years at Pacific, biology professor Robert Stockhouse and his wife have had approximately 700 students to dinner. "That's the sort of smallness I love about Pacific," he says. "Once, as a bonus question on an exam, I asked my students to name all four of my kids; the funny part was, almost everybody got them right."

“I've learned a lot about myself here — professors don't just teach you facts and figures, they teach you to appreciate the value of life and the value of an education.”

Tammy Combs  
Biology Major  
Lakewood, Colorado

## Because we're big

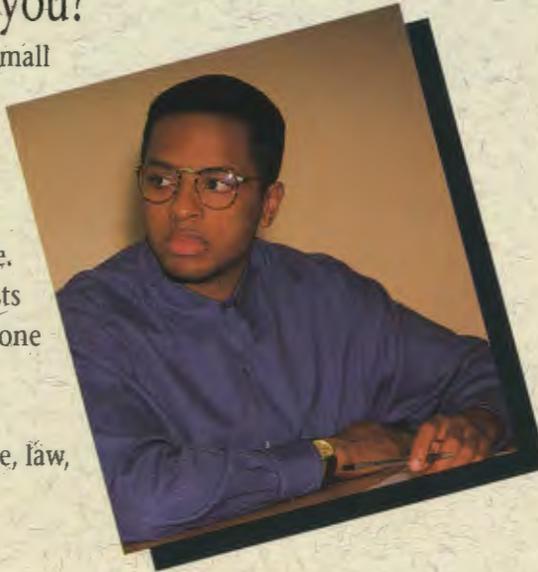

Pacific is big where it counts most. You'll find a wide variety of majors. You'll be able to choose study programs abroad to explore other cultures and other ways of life. You'll enjoy an annual debate series with nationally-recognized scholars and political figures. There's even a Pacific Intercultural Foundation to expose you to a part of the world that's rapidly growing in importance: the Pacific Rim.

Pacific is big on the hands-on approach to learning. Our small size saves you from having to sign up weeks in advance to use our computers, diagnostic equipment, chemistry labs, or sophisticated audio and video studios. At Pacific, you'll get to use the technology of tomorrow today and every day.

## Is Pacific right for you?

Should you choose a small university like Pacific? If you want the kind of individualized attention a smaller school can provide, Pacific is an excellent choice.

A Pacific education lasts a lifetime. Graduates have gone on to excellence in fields as diverse as communications, education, politics, medicine, law, music, graphic design, and computer engineering.

## Academic Programs

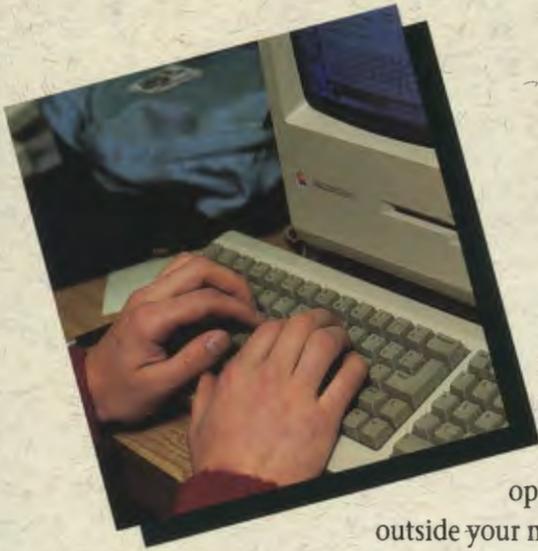

### College of Arts and Sciences

- **BUSINESS ADMINISTRATION**  
with concentration in: Accounting, Finance, Management, Marketing, or Small Business Management
- **COMMUNICATIONS**  
with emphasis in: Journalism, Television and Mass Communication
- **NATURAL SCIENCES**  
Applied Science, Computer Science, Biology, Chemistry, Mathematics, Physics, Pre-Engineering, Pre-Med and Health Professions
- **HUMANITIES**  
French, German, Spanish, Japanese, Chinese, Literature, Creative Writing, Philosophy, Philosophy with Religion Emphasis, Coordinated Studies in Humanities
- **EDUCATION**  
Elementary Education, Secondary Education (Certification offered in: Art, Biology, Integrated Science, Language Arts, English, Mathematics, Foreign Languages, Music and Social Studies), and Physical Education
- **SOCIAL SCIENCES**  
Economics, History, International Studies, Politics & Government, Psychology, Social Work, and Sociology
- **THE ARTS**  
Art, Music, Theater, Bachelor of Music in Professional Studies, and Bachelor of Music Education

### Graduate Programs

- **THE COLLEGE OF OPTOMETRY**  
Doctor of Optometry  
(Students may apply to the Pacific University College of Optometry after a minimum of two years of prerequisite coursework.)
- **THE SCHOOL OF PHYSICAL THERAPY**  
Master of Science in Physical Therapy  
(Students may apply to the master's program after a minimum of three years of prerequisite work.)
- **THE SCHOOL OF PROFESSIONAL PSYCHOLOGY**  
Doctor of Psychology (Psy.D.)  
Master of Science in Clinical Psychology
- **THE SCHOOL OF OCCUPATIONAL THERAPY**  
Bachelor of Science in Occupational Therapy with certifications.  
(Students may apply to the two-year professional program after a minimum of two years of prerequisite work.)
- **Advanced Degree in Education**  
Master of Arts in Teaching  
Master of Science in Teaching  
Fifth Year M.A.T.
- **Cooperative Masters Degrees**  
Computer Science  
Electrical Engineering  
Applied Physics  
Environmental Science

# Big Opportunity.

“ I was nervous coming to college as a freshman, but the people at Pacific made me feel welcome, and I quickly made friends. ”

Emily McGinley  
Mathematics Major  
Aloha, Oregon

## The freedom to explore

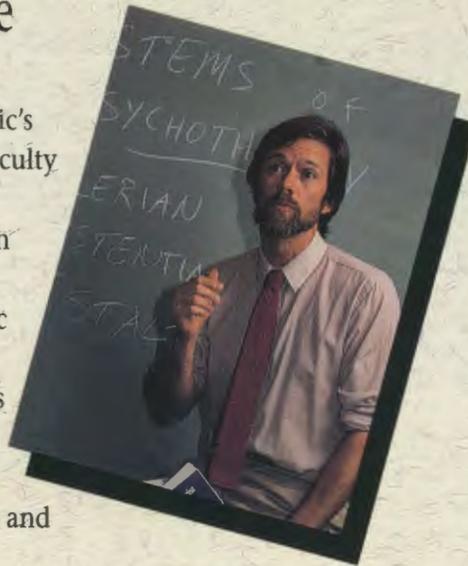

Pacific offers excellent opportunities to explore disciplines outside your major. An elementary education major could choose to spend a year studying in Japan.

A physical therapy student could play violin in the University Orchestra. It is not uncommon to see business majors involved in theater productions or writing for the University paper. Pacific believes college should prepare you for more than a career. It should help you continue your development as a person and give you the tools for a lifetime of learning.

## Professors who practice what they teach

More than 80 percent of Pacific's professors hold doctoral degrees. Faculty members regularly publish their research, frequently in collaboration with students, in scholarly journals and make presentations at academic conferences around the world. A number of professors hold positions in state and national professional organizations and are recognized leaders in politics, communications and the arts.

First and foremost, Pacific's professors are teachers. Their teaching is a priority above all else and one of the many things that has made this university so unique.

## A Look at Some, but Not All, of Pacific's Courses

### THE ARTS

*Advergraphics* ▼ *Painting: Oil/Acrylic* ▼ *Rakku* ▼ *Art of China & India* ▼ *Music of the Counter Culture* ▼ *Woodwind* ▼ *Brass* ▼ *Percussion Class Techniques* ▼ *Composition and Arranging* ▼ *The High Baroque: Bach and Handel* ▼ *Theatre Company: Performance* ▼ *Theatre Company: Technical and Organizational* ▼ *Directing and Performance for the Camera*

### EDUCATION

*Children's Literature* ▼ *Normal Language Development in Children* ▼ *Computers for Educators* ▼ *The Exceptional Child* ▼ *Physical Education: Fitness for Life* ▼ *Coaching Methods* ▼ *Anatomical and Mechanical Kinesiology* ▼ *Perceptual Motor Learning* ▼ *Current Health Issues*

### HUMANITIES

*Introduction to Mass Media* ▼ *Argumentation and Debate* ▼ *Television Production* ▼ *Scriptwriting* ▼ *Poetry and Fiction Writing* ▼ *British Literature* ▼ *Introduction to Linguistics* ▼ *Major Writers* ▼ *Introduction to French Language and Culture* ▼ *Topics in German Language and Culture* ▼ *Italian Language and Culture* ▼ *Japanese Language and Culture* ▼ *Introduction to Chinese Language & Culture* ▼ *Introduction to Spanish Language & Culture* ▼ *Ethics, Medicine and Health Care* ▼ *Philosophy of Religion*

### NATURAL SCIENCES

### SOCIAL SCIENCES

*Contemporary Economic Problems* ▼ *Micro-economic Theory* ▼ *Macroeconomic Theory* ▼ *Money and Banking* ▼ *Accounting* ▼ *Auditing* ▼ *Small Business Management* ▼ *Marketing* ▼ *International Business* ▼ *The Far East and the Modern World* ▼ *History of American Thought and Culture* ▼ *Nations and the Problem of Peace* ▼ *The Soviet Union* ▼ *Modern China* ▼ *The Psychological Bases of Aggression* ▼ *Child and Adolescent Development* ▼ *Learning and Behavior Modification* ▼ *Basic Clinical and Counseling Techniques* ▼ *Research Methods in Anthropology* ▼ *Sociology of the Family*

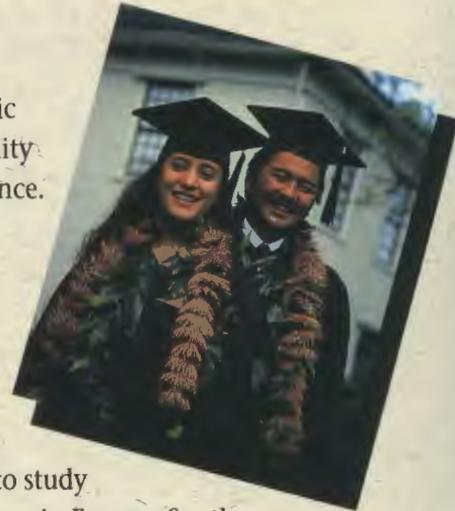

# Excellent Choices.

# Small World...

College is a time to expand horizons. At Pacific, that opportunity is a vital part of our program. The University brings the world into the classroom and, at the same time, uses the world as a classroom.

## Internships

As part of our "hands-on" philosophy, Pacific offers internships that give students the opportunity to earn academic credit for full-time work experience. Students can take advantage of our proximity to many of Oregon's leading high-tech companies and other businesses or go out of the state as part of the internship program.

## Studying and working abroad

A good way to learn about other cultures is to study abroad. Pacific offers semester or year-long programs in Europe, South America and the Far East. Apart from language study, these programs immerse students in the culture of the host country. Any qualified student, regardless of major, may participate, and most financial aid packages will apply.

If you'd like to try working abroad, Pacific can arrange that, too. In addition to regular internships, the University offers overseas internships in a number of countries.

*“The international students at Pacific really add an intercultural dimension to the University. We have students from Denmark, Finland, Hong Kong, Japan, Kenya, Taiwan, Uganda, and a variety of other countries from around the world. A student may have a lab partner from Indonesia, a fraternity brother from Kenya, or a classmate from Finland. Students seem to enjoy making friends from other countries and learning about other cultures. You really learn about your own culture when you learn how others see it.”*

Peter Johnson  
International Student Advisor

“Education does not only take place in the classroom. Long conversations with American students have given me an opportunity to learn about the American culture. At the same time, it has also given me a chance to tell people about my culture.”

Jens Martin Thorsen '91  
Computer Science  
and Mathematics Major  
Holstebro, Denmark

## Overseas Programs

London, England—Central College, Polytechnics of North London

Carmarthen, Wales—Trinity College

Paris, France—The Sorbonne and Institut Catholique

Nice, France—University of Nice

Prien, West Germany—Goethe Institute

Vienna, Austria—University of Vienna

Granada, Spain—University of Granada

Guayaquil, Ecuador—Tecnológico Espíritu Santo

Nagoya, Japan—Nagoya Gakuin University

Osaka, Japan—Kansai Gaidai University

Hong Kong—Chinese University of Hong Kong

In addition, Pacific students will be studying in Strasbourg and Caen, France and Beijing, China.

## Other enlightening opportunities

A variety of other Pacific programs expose you to new ideas and other ways of thinking. Joint research with Pacific's faculty involves students at all levels. Past projects have included long-lasting batteries for space ships, nematodes for crop and insect control, and a study of the Holocaust.

Pacific's unique interdisciplinary Peace and Conflict Studies program explores the causes and resolution of conflict, drawing on faculty from all departments.

The University's annual debate series, run by students, lets you hear the opinions of such notables as William F. Buckley, Robert Bork, Jeanne Kirkpatrick, Andrew Young, Patricia Schroeder and Arthur Schlesinger on everything from national defense to environmental protection. The acclaimed Portland Arts and Lectures series, co-sponsored by Pacific University, brings such literary stars as John Updike, Annie Dillard, Norman Mailer and Susan Sontag to the community.

## Pacific Honors Program

Interested in an opportunity for special interdisciplinary study?

Academically talented students can apply to participate in the Pacific Honors Program. The program includes seminars and individual research with a member of the faculty.

Students participating in the program often join faculty members at their homes for dinner and discussion.

### Recent Honors Research Topics:

#### BIOLOGY

"Vascular Abnormalities Associated with Chronic Heart Failure: Characterizing Enhanced Vasoconstriction due to Diminished Endothelium-Derived Relaxing Factor Activity"

#### ART/LITERATURE

"Universal Expressions of Human Experience in Kathe Kollwitz's Mother/Child Images"

#### INTERNATIONAL STUDIES/MODERN LANGUAGES (JAPANESE)

"Japanese Economic Relations with the Andean Countries: Does Culture Matter?"

#### PHYSICAL EDUCATION

"The Effects of a Sport Drink on Anaerobic Performance"

#### CHEMISTRY

"Groundwater Phosphorus Concentrations on Forest Lands of the Tualatin Valley River System"

# New Adventures.

# A Place to Belong...

*“Pacific challenged me, academically and socially. . . . From stock quote analyses and all night computer sessions to Hawaiian luaus and alumni events, Pacific prepared me to accept the challenges of an ethnically diverse, highly-competitive profession.”*

**BECKY KURTZ '90**  
Caldwell, Idaho  
Computer Science

Becky currently serves as a Software Design Engineer with the Microsoft Corporation in Seattle. At Pacific, she was a member of the Phi Lambda Omicron Sorority, president of the Student Alumni Association and a member of Spurs, a sophomore community service group.

*“I found I didn't need an appointment to see my professors; sometimes I just dropped by their houses and had coffee. It's more than a student-professor relationship, it's really a friendship.”*

**KEN THORP '92**  
Bellingham, Washington  
Communications/Sociology

Ken spent four years playing on the varsity soccer team, served as vice president of student government at Pacific University, and was a Resident Assistant. His leadership experience in the residence life program was excellent training for his current position as a living skills instructor for mentally handicapped adults.

*“The best thing about Pacific was the opportunity to develop close, personal relationships with my teachers. You put your names on your exams, not your social security number. . . . I honestly believe I'm where I am today, and who I am, because of my experiences at Pacific.”*

**DON BOHN '89**  
Ft. Collins, Colorado  
Psychology  
Minor: Philosophy

After a year at a large state school, Don decided to transfer to Pacific.

Don's experience as student body President led him to pursue a graduate degree in public administration and he is now serving as an administrative analyst for Oregon's Washington County.

*“I'm very involved, but I can't imagine approaching Pacific in any other way.”*

**LAURIE HILL '92**  
Tulsa, Oklahoma  
Literature/Creative Writing  
Minor: Spanish

Laurie applied to Pacific after a ten-year absence from school which included working full time and raising her daughter. In choosing a school, she wanted a community where professors were accessible and where a non-traditional minority student would feel comfortable getting involved.

Laurie volunteered as an orientation counselor for transfer and non-traditional students, tutored local Hispanic students, and was founder and editor of one of Pacific's three literary magazines.

Laurie will be attending Tulane Law School in New Orleans and hopes to go into public service law to “. . . continue the spirit of service I found at Pacific.”

We've found that the most successful Pacific students are the most involved. The energy and enthusiasm they display on campus translates into successful careers and graduate study.

The Office of Career Services is available to assist students with resume writing, interview skills, graduate school applications, job searches and alumni connections.

**“Pacific students learn to speak their minds and ask to be heard.”**

**KATHY HOLCE '91**  
*Tacoma, Washington*  
*Business*

Kathy works as research analyst for Market Trends, Inc. in Portland. She chose Pacific because she wanted a school in a small town setting. “What I didn't count on, though, was the exposure to a wide range of ethnic diversity. Pacific opened my eyes to other cultures, religions and values.”

Kathy served on the student council and was instrumental in increasing the funds that the University spends on library purchases.

**“Pacific put me right out into the schools and I found that I loved working with kids.”**

**SHARMAN ENSMINGER '92**  
*Cove, Oregon*  
*Elementary Education*

Sharman came to Pacific from a rural town in eastern Oregon. Undecided about a major, an introductory education course her freshman year gave her helpful direction.

While pursuing her education degree, Sharman also found time to serve as a Resident Assistant, manage the student coffee house and coach a local elementary school basketball team.

“My professors also encouraged me to look at opportunities abroad.” Consequently, Sharman will be spending the next few years with the Peace Corps in Latin America. “Working in a diverse and multi-ethnic country can only make me a better teacher.”

**SARAH SCHMELZER '92**  
*Palo Alto, California*  
*Physical Education*

It was a track injury before attending Pacific that eventually led Sarah to the field of sports medicine. Encouraged by a Pacific professor to get involved in the athletic training program, Sarah furthered her interest through the University's Honors Program where she did independent research on athletic performance.

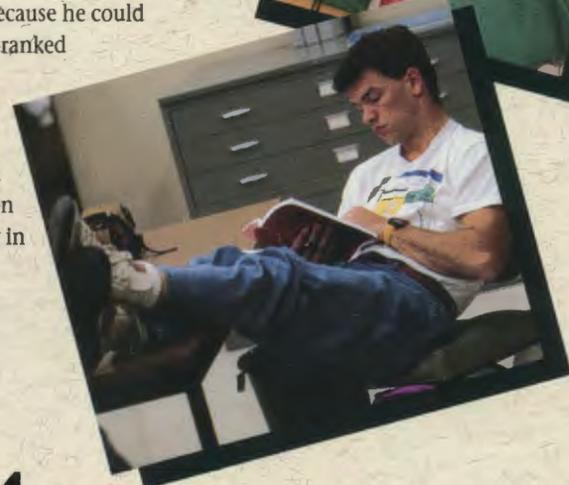

Sarah will attend the graduate program in kinesiology at the University of Illinois at Urbana-Champaign.

**“One of the things I liked about Pacific was that we were required to take courses in all disciplines, not just science . . . it opened my eyes and opened my mind.”**

**BRADY WALKER '92**  
*The Dalles, Oregon*  
*Chemistry*

Brady was a 4.0 student in high school where he also found time to play football and wrestle. He chose Pacific because he could participate in a nationally-ranked wrestling program and pursue a pre-med curriculum.

Brady begins his medical school studies at the Oregon Health Sciences University in the fall.

# Bright Futures.

# Lots of Excitement.

It is easy to get involved at Pacific. Every activity is open to all students. There are theater productions; radio and television studios; a full assortment of musical groups; your choice of intercollegiate, club or intramural athletic programs; a number of inter-faith groups; active student government; and fraternities, sororities and a host of other clubs and organizations.

## Life in the residence halls

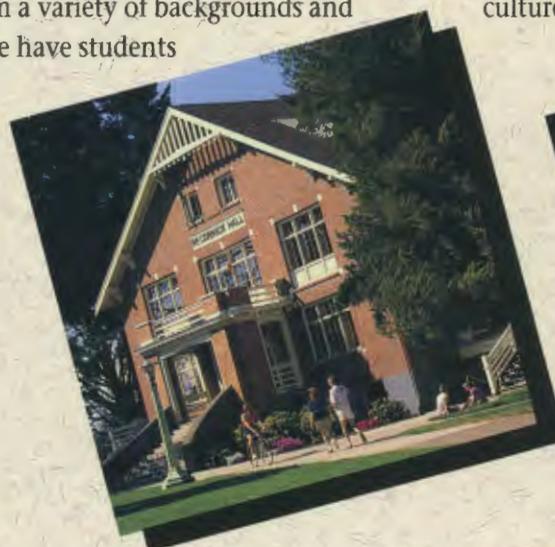

Much of what one learns at college happens outside the classroom. Pacific believes in the value of the residential campus experience and makes residence life active, fun and eventful. The University is small enough that you can create many of your own activities. Beach parties by the pool, ski trips to Mt. Hood, or whale watching at the coast complement pickup frisbee games on the lawn, corridor paint-the-wall parties or group study sessions around a fire in one of the lounges.

## An opportunity to meet new friends and discover new interests

One of the greatest advantages to living in the residence halls is making new friends. In September, everyone is new; by November, often lifelong friendships have been forged.

Pacific students come from a variety of backgrounds and number come from the West, we have students from across the nation and around the world.

cultures. While the largest

“Pacific is a wonderful school where students know that they are known.”

Charlotte Wagy  
Psychology Major  
Sitka, Alaska

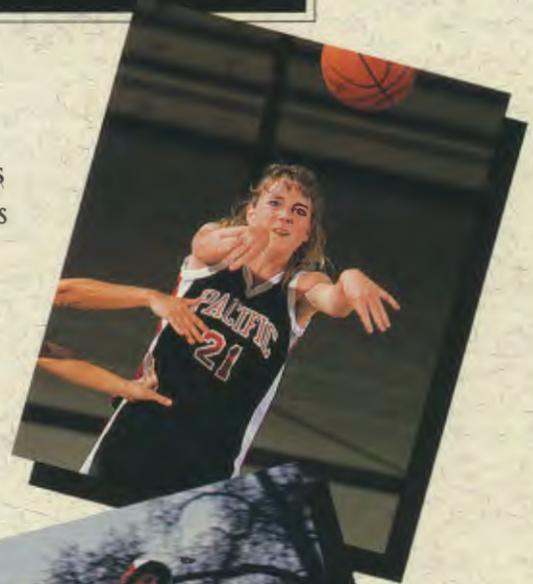

“Pacific proved to be a warm, supportive, and intellectually encouraging environment. Being at the time a 17-year-old kid from Burns, Oregon, that was important to me.”

Dr. Calvin Mosley, '66  
Associate Dean, John F. Kennedy  
School of Government  
Harvard University

## Athletics

It isn't enough to exercise just your brain, of course. That's why athletics play an important role in campus life. At the intercollegiate level, Pacific fields teams in the following sports:

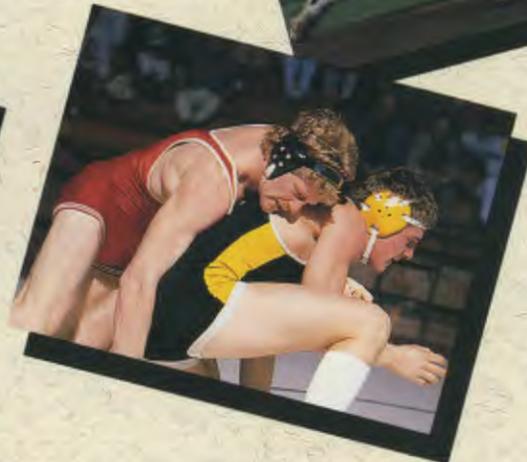

MEN	Baseball	WOMEN	Volleyball
	Basketball		Softball
	Soccer		Basketball
	Golf		Soccer
	Tennis		Tennis
	Cross Country		Cross Country
	Wrestling		

## Sports just for the health of it

Interested in sports just for fun and exercise? Intramural programs are offered throughout the year. The Pacific Athletic Center has a full gym, dance studio, racquetball and squash courts, weight-training facilities and a fieldhouse large enough for indoor soccer matches.

Tennis courts, jogging paths and various athletic fields dot the campus.

# One Big Family.

# Oregon . . .

## PORTLAND

Pacific University is located in Forest Grove, a beautiful, secluded rural community 25 minutes west of downtown Portland. The small-town atmosphere, coupled with easy access to the big city, has given Pacific a unique advantage. Students can choose between the many attractions of a major metropolitan area, or enjoy the beauty of Oregon's spectacular countryside.

### Urban adventures

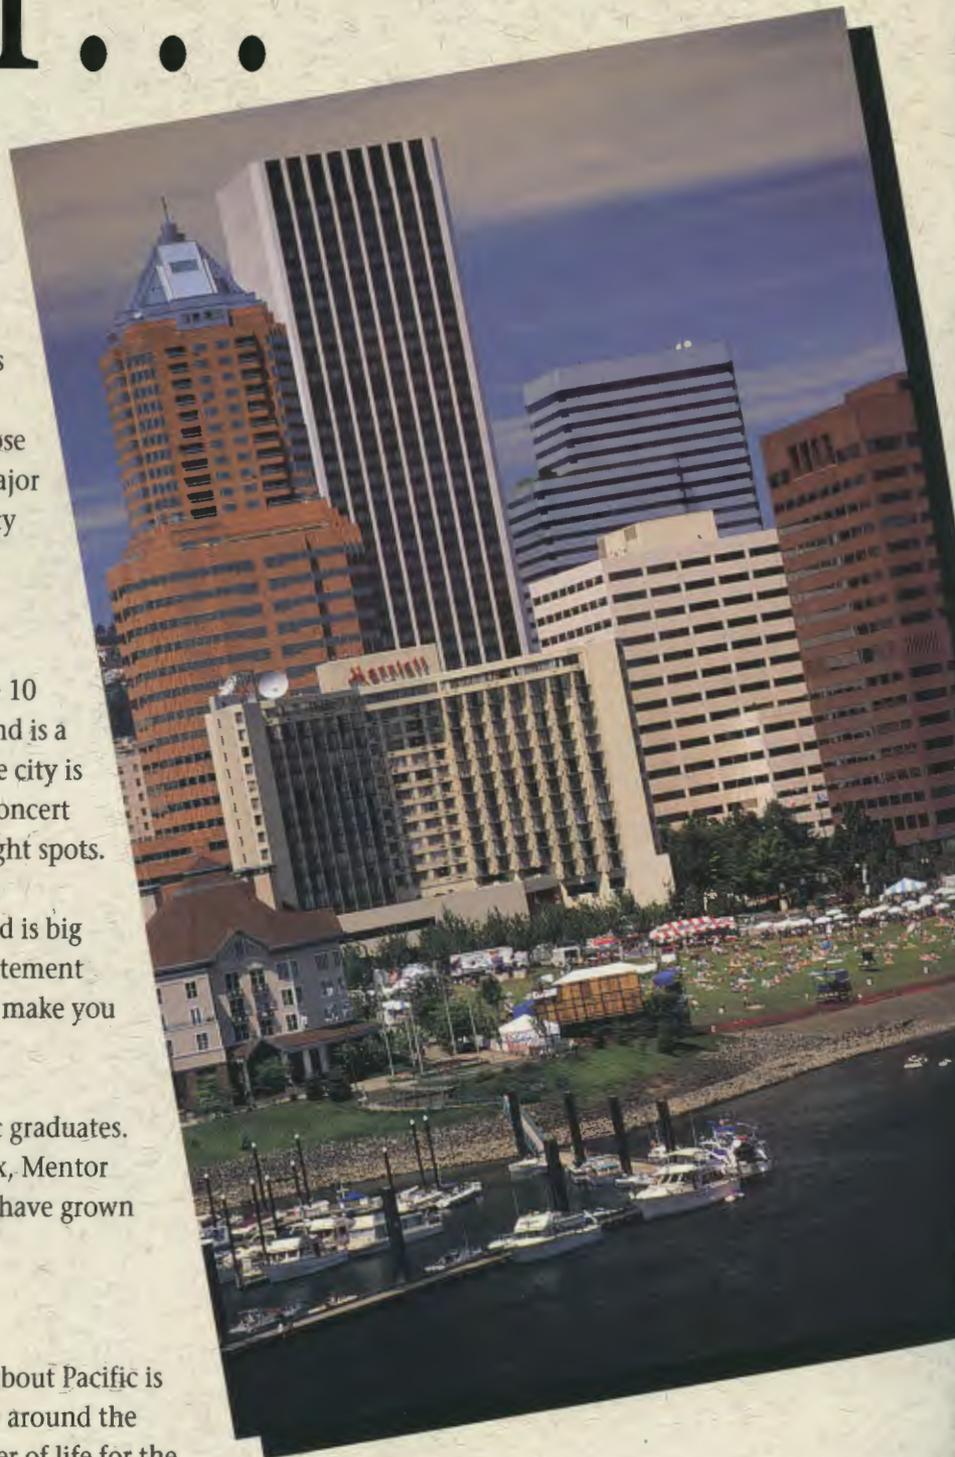

Frequently ranked as one of the 10 most livable cities in America, Portland is a vibrant center of cultural activity. The city is full of theaters, galleries, museums, concert halls, parks, interesting shops and night spots.

From Ethiopian restaurants to a performance by Baryshnikov, Portland is big enough to give you all the urban excitement you could want, but small enough to make you feel at home.

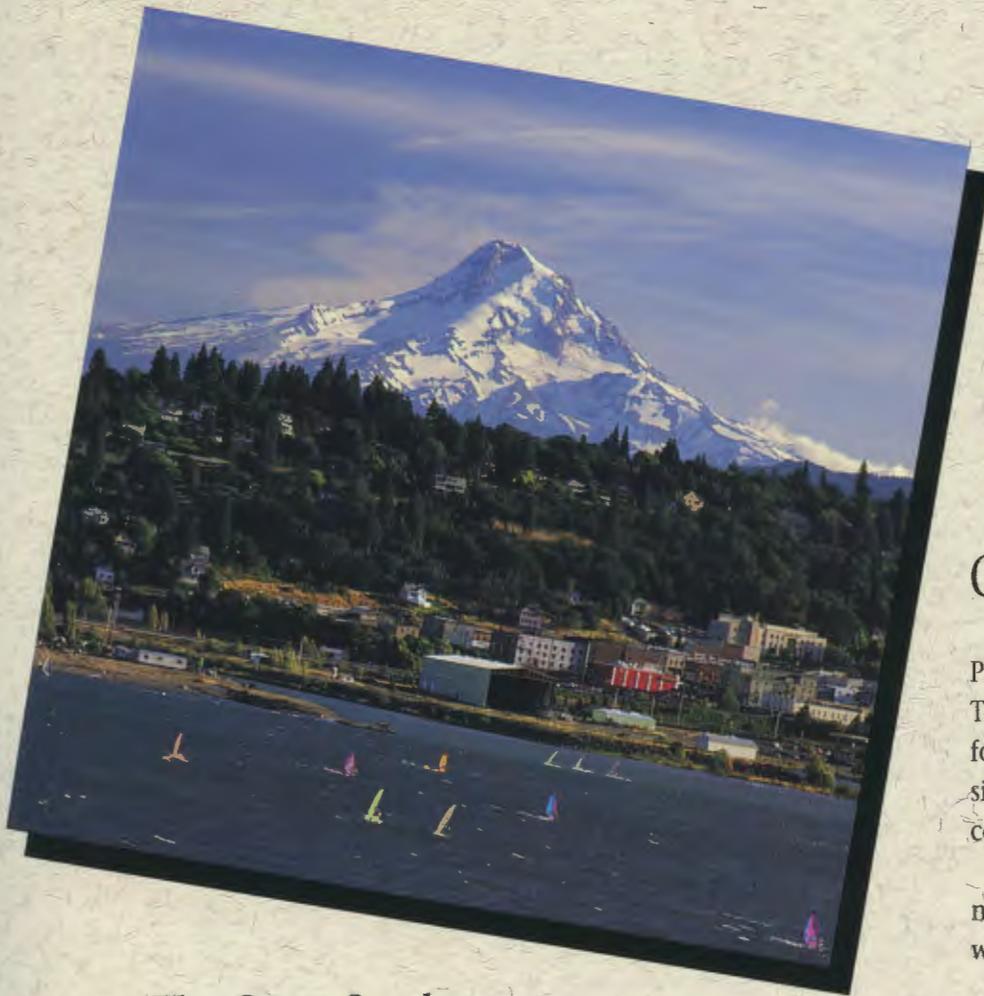

Portland offers a wide range of employment opportunities for Pacific graduates. Well-known companies like Tektronix, Mentor Graphics, Nike, Jantzen and AVIA all have grown and prospered in the area.

### Forest Grove

Perhaps one of the best things about Pacific is Forest Grove. The town has grown up around the University and Pacific is still the center of life for the community. Main Street runs parallel to campus and provides everything a student needs from local banks to pizza parlors.

# The

“Pacific really gave me the opportunity to be an individual. I think if I had gone to a larger university I would not have had the encouragement that Pacific gave me.”

William Hilliard, '52  
Editor, *The Oregonian*

## Campus visits

The best way to get a feel for whether Pacific is right for you is to visit the campus. The Office of Admission is eager to arrange for prospective students to tour the campus, sit in on classes, or speak with a professor, coach or students.

Interested students wishing to spend a night in the residence halls will be housed with student hosts.

To arrange a visit or overnight stay, contact the Office of Admission, toll-free 1-800-677-6712 or (503) 359-2218.

## The Great Outdoors

If you like the great outdoors, you've come to the right place. Pacific University is surrounded by it. The Oregon coast is just 45 minutes from the campus. Mt. Hood and some of the best skiing in the Northwest, downhill (year-round) and cross-country, is just a 90-minute drive.

The Columbia River Gorge, a few miles east of Portland, offers hiking trails and spectacular waterfalls, and is famous for its world-class windsurfing. Hagg Lake, three miles from campus, is a favorite springtime destination for Pacific students and a cycling center for the area.

# Great Northwest.

# A Few Details...

Prospective students should know what the Admission Office looks for when considering an application. Every part of the process is important. Transcripts and standardized test scores are an indication of a student's ability to undertake a challenging academic curriculum.

The essay provides an opportunity for personal expression and expanding upon the talents, experiences and extenuating circumstances that make you unique. The recommendation is a reaffirmation of a student's potential and an interview allows applicants to make sure that all their questions have been asked and answered.

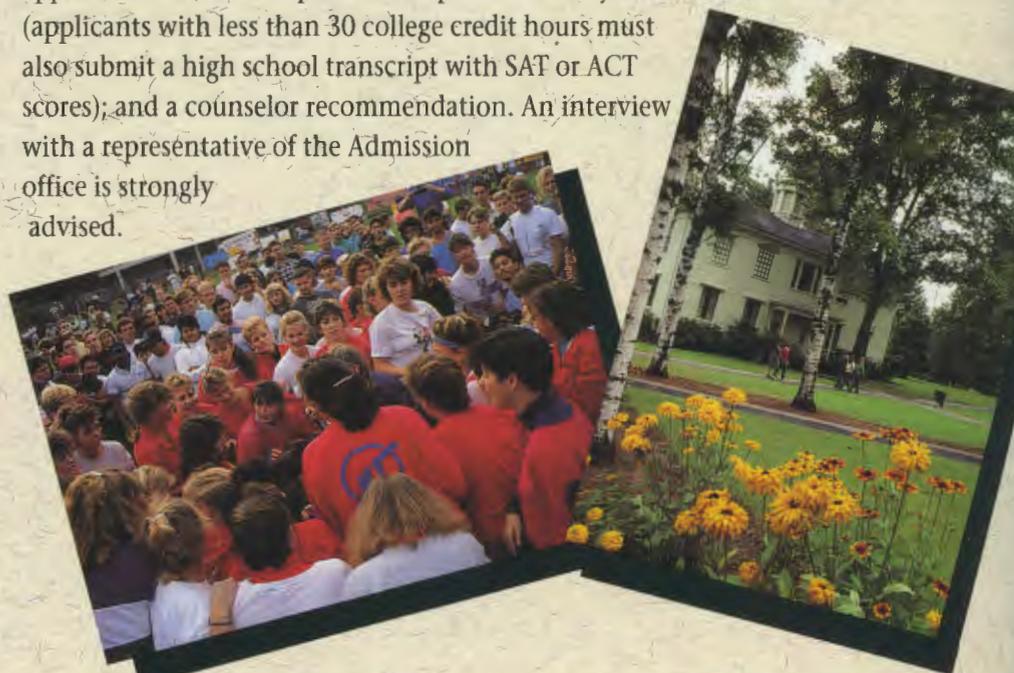

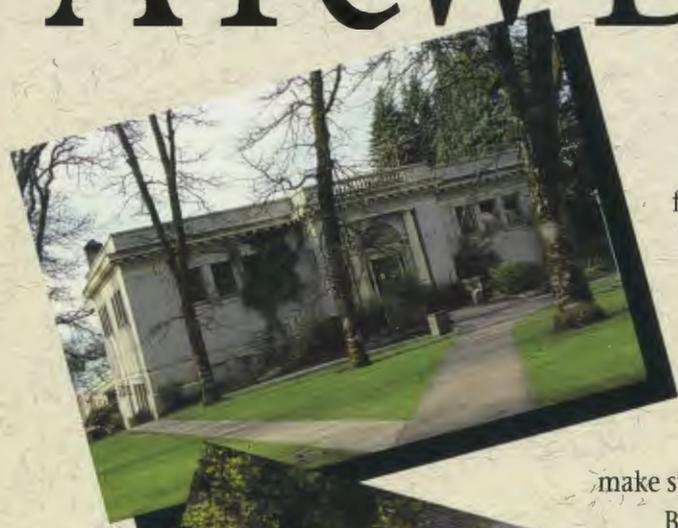

Beyond test scores and grade point averages, Pacific looks for extra-curricular involvement. Accelerated and honors courses are taken into consideration. Positions of leadership and responsibility are important. Above all, Pacific looks for students who will not only participate, but who will be successful at the University.

## Freshmen

Application requirements for entering freshmen include: a completed application form and application fee; an official transcript of high school course work; SAT or ACT scores; and a counselor recommendation. An interview with a representative of the Admission office is strongly advised.

## Transfers

Application requirements include: a completed application form and application fee; transcripts from all post-secondary institutions attended (applicants with less than 30 college credit hours must also submit a high school transcript with SAT or ACT scores); and a counselor recommendation. An interview with a representative of the Admission office is strongly advised.

## Application Calendar

The Office of Admission will begin reviewing completed applications November 1. Interested students are encouraged to apply early. Priority will be given to applications received by March 15. Late applications will be considered on a space-available basis.

## Financial Aid

Pacific University has an aggressive financial assistance and scholarship program. Academic scholarships and grants can equal three quarters of the cost of tuition per year. Talent awards in music, speech/debate, and athletics, together with Challenge Awards, based on financial need, supplement other types of assistance to make a Pacific education affordable to almost any student.

In 1992-93, 90 percent of our students received more than \$8.5 million in grants, loans, scholarships and work/study programs — amounting to an average of \$9,500 per student.

All students, regardless of need, should submit an application for financial aid between January 1 and February 15. Applications may be obtained from the Financial Aid Office at Pacific or from your current school. Transfer students must send Pacific a financial aid transcript from each college or university attended.

## Tuition Contract

To better help students and their families plan for future tuition adjustments, Pacific University has instituted a progressive tuition program that will freeze a student's entering tuition rate and only increase that dollar amount by the annual rate of inflation (commonly known as the Consumer Price Index).

What this means for students entering in 1993 is that the University will contract with each student to hold their tuition rate constant at 1993 dollars with only CPI adjustments for subsequent years.

## Costs:

### 1992-93 Academic Year

Tuition and Fees .....	\$12,504
Room & Board* .....	3,636
<b>Total estimated cost .....</b>	<b>\$16,140</b>

\*Based on costs for a double room and 19 meals a week.

# Plenty of Help.

# Is Pacific University Right For You?

Picking a school for your undergraduate education is no easy task. You have literally hundreds of options. But there are some simple generalizations about Pacific students that may help you decide if this university is right for you.

Pacific students value individuality. They like being treated as individuals, not numbers. They want their education to be exciting and challenging, to have a chance to contribute to the academic community, not just take from it. They want something that fits them.

Pacific students are interested in a strong liberal arts and science education with a professional focus. They want to be able to move successfully into graduate school or directly into a career.

Most of all, Pacific students want a quality learning experience. They want the kind of education only a small university that's big on personalized instruction can give.

A \$25 application fee should accompany this form.

# PACIFIC UNIVERSITY

FOREST GROVE, OREGON 97116-1797  
(503) 357-6151 / 1-800-677-6712

To be completed by the student.

## APPLICATION FOR ADMISSION TO THE COLLEGE OF ARTS & SCIENCES

### HOW TO APPLY:

- Forward this completed application form and the \$25 application fee to the Office of Admission.
- Submit the recommendation form to your counselor or academic advisor.
- Request that official transcripts from each school attended be sent to the Office of Admission.

- All freshmen and transfer students with less than 30 semester hours of credit must submit SAT or ACT test scores.
- Students are strongly encouraged to arrange an interview with a member of the admission staff.
- Professional Optometry, Physical Therapy, and Occupational Therapy applicants should contact the Office of Admission for application packets.
- International students should request an international application form.

# Facts about Pacific and its campus.

**FOUNDED:** 1849 by Congregational pioneers.

**CHARACTER:** Independent, privately owned and supported, liberal arts oriented, coeducational, residential.

## ACADEMIC PROGRAMS:

- College of Arts and Sciences
- College of Optometry
- School of Occupational Therapy
- School of Physical Therapy
- School of Professional Psychology
- Graduate Studies in Education

## DEGREES OFFERED:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Music
- Bachelor of Music Education
- Bachelor of Science in Occupational Therapy
- Master of Science in Physical Therapy
- Master of Science in Teaching
- Master of Arts in Teaching
- Master of Education (Visual Function in Learning)
- Master of Science (Clinical Optometry, Physiological Optics)
- Master of Science in Clinical Psychology
- Doctor of Optometry
- Doctor of Psychology

## ENROLLMENT 1991-92:

- 1575 undergraduate and graduate students
- 51/49 male/female ratio
- 35 states represented, primarily West Coast and Hawaii
- 16 Foreign countries represented

## FACULTY:

- 83 percent hold-doctorate degrees
- 13/1 student/faculty ratio

**CAMPUS PROFILE:** Pacific's 55-acre campus is beautifully situated in the community of Forest Grove, Oregon, 25 miles from Portland, the state's largest city. The campus consists of 17 main buildings blending the traditional and innovative in architecture. Old College Hall is the oldest building west of the Mississippi used continuously for educational purposes.

## SPECIAL PROGRAMS:

- International/Pacific Rim programs
- Public Optometry Clinics
- Public Physical Therapy Clinic
- Psychology Clinics
- Community Service opportunities offered through the Humanitarian Center
- Overseas Study
- Pacific Merit Scholars and University Honors programs
- Tom McCall Forum
- Malheur Field Station
- President's Lecture Series
- Artist's Series (music)
- Hawaiian Club's student-sponsored Luau
- Music in May Concert

## STUDENT ORGANIZATIONS:
