Feeder cattle are still under some pressure. The Futures were going down a little bit every day last week with not too much activity this week. There has been a lot of fat cattle hit the market the last week. If we can eat our way out of the back-up on this meat, maybe the feeder market will get a better tone to it. Feedlots seem to be about full at this time and are still being called and offered cattle. If you have cattle to sell, let us know and we will do our best for you.

THANK YOU FOR THE RESPONSE TO THE MAILING LIST OF THE MARKET REPORT. However, if you have not notified us of continuation this will be your last Market Report. We will try to continue the service to those people who have purchased or sold cattle through our Yard in the last year. Thank you again.

We will have a FEEDER SALE October 21. There are some very good cattle already consigned to this sale. The feeder market is still under a little pressure but maybe in two weeks this thing will turn around. When you have some good cattle and some numbers it also makes a lot of difference. Butcher cows were steady and in good demand.

We will have an EQUIPMENT SALE October 28 (a Wednesday) here before the start of the regular livestock sale. This equipment is from three different farms and will be good equipment. Next week before the cow sale, October 14, we will sell a potato combine and potato truck bed.

REMEMBER -- FEEDER SALE October 21 -- EQUIPMENT SALES -- October 14 and October 28.

The market was very active on feeder cattle this week with the big part of the cattle going to out-of-state buyers. Butcher cows were \$2 to \$3 lower.

We already have 700 head of cattle consigned for the Special Sale next week. If you have any cattle to sell or want to buy some---be here next week. There are not too many buyers out in the country trying to buy cattle this year and we are able to get the top quality cattle here and get the top dollar for you. When you have a barn full of buyers wanting to buy different sizes of cattle and we sort the cattle according to size it will bring you more dollars.

FEEDER SALE NOVEMBER 13, 1981

We had a lot of choice cattle this week with them bringing the top dollar. We felt like we got along very well with as much pressure that's being put on the fed cattle and Futures market. A big percentage of the cattle went out of state again this week, with light calves being in good demand. November 16, 1981, we will have another FEEDER SALE with a number of calves already consigned. December 16, 1981 we will have 20 two-year-old Angus Bulls.

FEEDER SALE, NOVEMBER 18, 1981

We had a light run of feeder cattle this week with about 2/3 of our sale being cows. We have a lot of good quality cattle consigned for next week's FEEDER SALE. We have 525 one-iron steer and heifer calves and a lot of 50 to 100 head consignments. Also there will be about 40 first-calf heifers. If you have cattle for this sale, let us know ahead of time so we can advertise. On DECEMBER 16 we will have 20 two-year old Angus Bulls. Don't forget November 18 will be the last sale for the month of NOVEMBER. We will not have a sale Nov. 25, the day before THANKSGIVING.

Also we would still appreciate hearing from those who have not given us your corrected addresses as the Postal Department is reluctant to deliver unless the address is the current correct address. Thank you.
