Bob 813-6
AG letter
RECEIVED
NOV 18 1983
Governor's Office

Nov. 17, 1983

Attorney General Dave Frohnmayer
Salem, Or. 97301

Dear Mr. Frohnmayer,

This letter is in support of your recently filed suit to stop Rajneeshpuram from operating as a legally incorporated city.

I think it is long past time when this aggregation should have been brought to heel.

I approve my tax money being spent to prosecute this case. I do NOT approve one cent of my taxes being delivered to the Rajneeshi for city services or any revenue-sharing. I think they are completely illegal.

Oregon has been far too tolerant of these grabbing whiners.

Their usurpation of the little community of Antelope, the homes, store, but especially the school and church, are intolerable. How could we have let the situation so deteriorate?

I think they are neither a religion nor legal entity, but a collective threat to Oregon and the United States.

One day, perhaps already, the free-labor free-love zombies who dwell in that Lotus land might awaken and seek legal status. They will clamor for citizenship, retroactive Social Security and even more rights and privileges than they already claim. Has any of them ever indicated they also have obligations and responsibilities? Rights, rights, rights, the law, the law, the law -- that's all they ever scream about.

I hope you and our governor and others concerned with this prosecution will hold firm and make these invaders understand the laws work for longtime, legal Oregon citizens, also.

Many persons support you. They just don't think to write.

Sincerely,

Martha Stranahan
