Honorable John Rhodes  
2312 House Office Building  
Washington, D.C.

Dear John:

As per my previous discussions with you, I helped arrange for the election of Oregon State Senator Vic Atiyeh as the male representative on the platform committee. As I understand the organizational meeting of the Oregon delegation last Friday provided that whoever was elected Vice-Chairman of the State Central Committee would be the female representative on the platform committee.

Vic Atiyeh has been in the State Legislature for a number of years, is very competent, articulate, and an extremely loyal Republican and Nixon supporter and I am sure that you will find him very cooperative in working out the details of the Republican platform. If there are any particular messages you wish to convey to him, I will be happy to undertake the job.

Sincerely,

WENDELL WYATT  
Member of Congress

Best of luck -
