

MEMORANDUM

February 10, 1986

TO: Governor
FROM: Gerry Thompson
RE: Washington County Transfer Station
Governor call:

Dick Waker - new chairman of Council
(President of Waker Associates, a land development
consulting firm in Beaverton.)
OFFICE: 643-9410
RESIDENCE: 292-6794

Hardy Myers - member of Council
(Managing partner of law office in Washington, D.C.
Will not move to D.C. until June.)
OFFICE: 224-3380 extension 415
RESIDENCE: 232-0991

NOTE: The Jim Gardner on the Council roster is not the
former Senator Gardner.

Points to cover:

1. How damaging location of transfer station in the Sunset Corridor is to existing development and future development, i.e. Fujitsu, NEC and Epson.
2. Why is there refusal to consider or even hear North Plains site? Criteria already violated by council, i.e. centroid of waste, etc.
3. Newman is working on site at 209th and TV Highway -- some kind of a land swap "deal." We have no details yet.
4. Why must the council decide for the Newman property on the north side of Sunset Highway at their next meeting (2/13) when it is a given there will be litigation and condemnation proceedings?
5. What can be done to convince Council to avoid damaging image of Sunset Corridor specifically and Oregon generally.

REMOVED
MARCH 11-13
