*Barb will be leaving UO for WSU at end of Feb. So, if you keep this list around for use later you could check back with me. There will probably be an "acting" person in the job before they hire a new director.

Note that you can send via Shuttle Mail to everyone except those at EOSC and OIT.

Don't feel obligated to spell out the name of the institutions. The addresses/titles as I've listed them will do. (However, do spell out OHSU!)

P.S. Oregon Independent Colleges Assn. Lake Oswego 635-6035 has a phone book you might want to get a copy of.

OREGON

OPEN MEETINGS

Oregon's Open Meetings law is contained in Or. Rev. Stat. Sect. 192.610 to 192.690.

WHO IS COVERED

The state, any regional council, county, city, district, or any municipal or public corporation, or any board, department, council, bureau, committee or subcommittee or advisory group or any agency thereof.

EXEMPTIONS

1. Public employment or discipline; 2. medical staff matters; 3. labor negotiations; 4. real property negotiations; 5. consideration of parole records; 6. preliminary trade or commerce discussions; 7. consultation with attorneys; 8. employee review and evaluation.

This statute does not apply to deliberations of the State Board of Parole, the State Banking Board, the Psychiatric Security Review Board, the Workmen's Compensation Board, any judicial proceedings or security programs of the Energy Facility Siting Council.

ENFORCEMENT

Any person affected by a decision of a public body may commence a suit in the circuit court for the county in which the governing body ordinarily meets for the purposes of requiring compliance with, or prevention of violations of this statute. The burden of proof begins with the citizen. The court may order payment to a successful plaintiff of reasonable attorney fees. The court can also order other equitable relief as is appropriate. A decision will not be voided if other equitable relief is available. If the court finds a willful violation, members responsible will be jointly and severally liable to the body for any amount paid.

COMMENTS

Notice and minutes are required by statute. A public body may hold an executive session after the presiding officer has identified the authorization under this statute. When telephone or other electronic means are used, and the meeting is not an executive session, the public body must make available to the public at least one place where they can listen to the communication at the time it occurs.

OPEN RECORDS

Oregon's Open Records law is contained in Or. Rev. Stat. Sect. 192-410. Every person may see them.

WHO IS COVERED

Every state officer, agency, department, division, bureau, board, commission; every county and city governing body, school district, municipal corporation, and any board, department, commission, council or agency thereof; and any other public agency of this state.

WHAT IS COVERED

Any writing containing information relating to the conduct of the public's business, prepared, owned, used, retained by public body regardless of physical form or characteristics.

EXEMPTIONS

Public records exempt from disclosure because of age include: records less than 75 years old which contain information about mental or physical health of a living individual; records less than 75 years old which were sealed in compliance with statute or court order; records of people in custody or supervised by a state agency, court or unit of government for a period of 25 years after termination of custody; student records required by law to be exempt from disclosure.

The following records are exempt from disclosure unless the public interest requires disclosure: 1. litigation records of public bodies; 2. trade secrets; 3. investigatory information; 4. test questions, scoring key and other data used to administer a licensing, employment or academic exam; 5. product, sale or purchase business records; 6. appraisal of real estate before acquisition; 7. names and signatures of employees who sign authorization cards or petitions requesting representation; 8. unfair labor practices charges; 9. circulation records of public libraries.

The following records are exempt from disclosure: 1. communication with a public body or between bodies of an advisory nature; 2. information constituting an invasion of privacy; 3. information submitted to a public body in confidence; 4. information records of the Corrections Division, including the State Board of Parole; 5. records received or compiled by the Superintendent of Banks; 6. certain records made or filed with the courts; 7. public records the disclosure of which is prohibited by federal law or regulation; 8. performance records; 9. records of the Energy Facility Siting Council concerning security.

OTHER STATUTORY EXEMPTIONS

1. Records of the Commission of Judicial Fitness; 2. expulsion records of students; 3. child abuse records; 4. juvenile records; 5. mortality studies; 6. birth and death certificates; 7. certain state fire marshall records; 8. motor vehicle accident reports; 9. employer account records; 10. unemployment insurance records; 11. bank examinations; 12. adoption records; 13. paternity records; 14. corporate tax information; 15. prison inmate medical records; 16. personal property tax returns; 17. community college student and facility records; 18. vocation rehabilitation records; 19. teacher evaluations and personnel files; 20. medical records; 21. private financial records.

ENFORCEMENT

Any person denied the right to inspect or review a copy of any public records of a state agency may petition the attorney general to review the record to determine its proper status. The attorney general must issue his order within seven days of receipt of the petition. If the attorney grants access, the agency can institute proceedings in the Circuit Court for Marion County. If the attorney general denies access, the person seeking disclosure may institute such proceedings. If the record is one of a public body other than a state agency, the local district attorney shall carry out the functions of the attorney general. The court may enjoin the public body from withholding the record and order production of the record. If a citizen prevails, he shall be awarded costs and attorney fees.

BROADCAST CHAINS IN OREGON

As can be seen from the accompanying list, most of Oregon's and all of Portland's television stations, and most of Portland's radio stations are owned by out-of-state corporations.

As might be expected, many people in the industry assert that out-of-state ownership is not really a factor in how the stations serve the local community, since with local managers and a strong local presence, the stations are perceived as belonging to the community.

Victor Ives, one of the few local owners of a Portland area radio station, disagrees somewhat. Ives and nine limited partners bought KMJK (FM) of Lake Oswego in October 1983 from Harte-Hanks Communications for \$2.3 million. He and his co-owners are using their firsthand knowledge of the market to better the station, he said. Ives said local ownership will be part of the station's marketing plan.

"I don't think it will make a heck of a lot of difference to listeners, but it will to the advertising community," he said.

Currently the FCC limits a corporation to owning a maximum of seven AM, seven FM, and seven television stations, with no more than five of these stations being VHF. The FCC is considering ending the rule and is receiving comment from the public on the issue. There is considerable speculation that the rule will be eliminated within the next few months, said Ives, a move he considers detrimental to individuality and creativity.

Acting on a request from the National Association of Broadcasters, the FCC is considering eliminating another rule which prohibits a company from owning three stations within 100 miles or in the same market. An FCC staff report suggested that the rule prevents companies from receiving the efficiencies of operating more stations in an area.

On the other hand, KATU's Tom Dargan stressed the advantages of joint ownership of stations in the same region. Fisher Broadcasting, which owns KATU (Channel 2) in Portland and KOMO radio and television in Seattle has a marketing department which serves both. "It's almost a have-to thing," said Dargan. "So many of our advertisers have stores in both markets." The stations also share news coverage, particularly of southwest Washington.

The following communications companies which own three or more stations or cable television franchises are listed along with their Oregon holdings. The source for most of the following information is the 1983 *Broadcasting Cablecasting Yearbook*.

Re: Background information, Corvallis Gazette-Times

Word is that the home office in Davenport, Iowa, is holding the budget reins pretty tight with the Gazette-Times. Jackman Wilson has not been replaced since he moved to the Register-Guard and editorials are now being written by both editor Rod Deckert and publisher Tom Jenks. The news staff is stretched pretty thin and Deckert has also been doing some newswriting. It's possible that Kay Black, city editor, is doing a few editorials but it's more likely that she is too busy for editorial writing. It is quite likely that she will be present when the governor meets with the "editorial board."

Tom Jenks, publisher. In his 50's. Has been in community at least 10 years. Was publisher of the Gazette-Times, went to another Lee Enterprises paper, then came back when Bob Ingalls retired. Writes a Sunday column and may be doing a few editorials. Knows advertising and business end as well as being a journalist. He has had to preside over decisions in the last year and a half to publish in the morning instead of the afternoon and to do a Sunday edition. Subscribers have no choice about the Sunday edition and circulation has suffered.

Rod Deckert, editor. Mid to late 30's. From Montana, the Missoulian. More likely than Jenks to ask the tough questions. Said to be candid, straight-forward, fair, under pressure to put out a good paper with only a few newspeople. Very proud of his adherence to journalistic principles, winner of SDX awards while at the Missoulian. Very independent, low key approach. Started career at the Gazette-Times as reporter, education reporter, city editor. Went to Missoulian for 3-4 years as managing editor. Came here again as editor.

Kay Black, city editor. Number 2 person after Deckert. Bright and articulate, started at the Missoulian; came about the same time as Deckert. Strong writer.

General information:

Concerns in Corvallis and the Gazette-Times readership area are, of course, jobs, lumber and the economy. A little-known fact is that Corvallis has the second highest per capita income in the state, next after Beaverton--OSU, Hewlett-Packard, CH2MHill, the Siuslaw National Forest, etc. Even though Corvallis is still a white-collar town, the number of local realtors is down from 300 a few years ago to about 90 currently.
