

VERMONT DOMESTIC MISSIONARY SOCIETY.

Montpelier, Vt., Dec 1st 1882

Rev. Horace Lyman,

Dear Sir;

Your letter is received. I will consult the Executive Committee of our Society in regard to your proposition & let you know if they decide to employ you. I have hoped, some time, toward Spring, to have some missionary meetings in the State where such help as you could give would be most acceptable. By reason of illness in my family I can not engage in them at present.

As to work in a house wifery church for two months, I know of none where that is just what is needed. We want permanent laborers & several of them, men of real energy & consecration.

Truly yours
C. S. Smith.
