

STATE OF OREGON

INTEROFFICE MEMO

TO: Bob Oliver

DATE: March 16, 1982

FROM: Gerry Thompson

SUBJECT: State Medical Examiner (your memo of 3/9/82)

Is it truly necessary to move the office? Would it take legislative action?

If it is just a matter of Dr. Brady's participation in staff and office manager meetings, I'm sure we could resolve that issue with Kristine Gebbie and Leo Hegstrom. True, with any future change in management, the problem could repeat itself.

If a move must be made, my preference would be the State Board of Medical Examiners. It seems, though, that a better reason for the move would be required. A move just to avoid the requirement of certain meetings seems hard to defend.
