

Community Action Organization Family Care

Family Care of West Tuality was established in 1967 and has been providing child care services in Western Washington County ever since. The programs they bring to CAO include:

ABC Soup -

ABC Soup is a nutrition reimbursement program for family child care providers. Specialists visit the homes and provide training and technical assistance on providing nutritious meals and snacks.

A Kid's Domain -

The program provides before-and after-school age child care for pupils in the Forest Grove and Banks school districts. During the summer, "Camp Eco" provides school age child care in a day-camp setting.

Metro Child Care Resource and Referral -

Metro links parents looking for child care with center and home child care options. In addition, parents, providers and businesses can acquire information on a range of topics including choosing or providing quality care, child development, and promoting literacy. Training and technical assistance is also available to child care providers.
