

3
flower - to meet them, and met
Pringle going for help, and the joyful
greetings were over, uncle Pringle said
"Ours we came very nearly going where
you told us to go." (Hell)

I too think the Grandma Brown
relics would be safer in the museum
and more appreciated too. I think
it would be well to loan them instead
of giving them outright. Then some
future administration couldn't
dispose of them at will.

Vic plans to go to Lyle, Wash, soon
to see Fred and family. Hopes he can
get Fred interested in going up to the
whet-namah - Wanted Alvin to go but
says it is too far from the movies to
suit Alvin. When he first got the
ranch he hoped Alpha and Phil
would go but it seems they have
no intention of leaving Forest Grove
ever - Vic has not worked much
all winter but just stays there at
the cabin. Usually comes over here Sundays.

Anna was here Friday eve.
She looks well. Had on a very
becoming hat. small - turned up at
left side - worn well down on right
side of her head. Her hair looked nice too.

Helen spent a week at home at end of second term. She and 2 other girls have taken a small apartment and will cook some of their own meals thereby saving a few dollars per month. She still eats ~~one~~ ^{one} meal a day at the College Side where she waits on table. Two of her teachers have asked her to join the debating team for next year.

Mildred and Beulah are both working in the nursery office. Mildred wants to attend Business College next fall. Dee hasn't been feeling well all winter - on the mend now I am happy to say.

When Dol Myers retires from teaching she and Min will go into the Catnip business. Have quite a lot of it - already growing at The Grove.

H. A. says to tell you that our mailorder business is better but local business is still rotten.

Yours with love

Mary Lewis

am enclosing stamp.
Save the one on outside too.
